

Academic Major	Field of Study	Faculty
Food technology	Science and engineering of food industry	Faculty of Agricultural Engineering
Economics of natural resources and environment	Agricultural Economics	
Economics of production and management of agricultural units		
Marketing of agricultural products		
Irrigation and Drainage	Water science and engineering	
Marine structures		
Agricultural meteorology		
-	Genetics and plant breeding	Faculty of Crop Sciences
Physiology of agricultural plants	Aggro technology	
Ecology of agricultural plants		

Chemistry, soil fertility and plant nutrition	Fertility management and soil biotechnology	
-	Plant Pathology	
animal feeding	Animal Science	Faculty of Animal Science and Fishery
poultry nutrition		
Physiology of livestock and poultry		
Genetics and breeding of livestock and poultry		
Breeding and breeding of aquatic animals	Fisheries science and engineering	
Processing of fishery products		
Forest management	Forest science and engineering	Faculty of Natural Resources
Forest biological sciences		
Forest construction and exploitation		
Cellulose industries	Wood industry engineering and cellulose products	

-	Pasture science and engineering	
Water and soil protection	Watershed science and engineering	
Watershed management		
-	Genetics and plant breeding	Genetic & Agricultural Biotechnology Institute of Tabarestan
Physiology of agricultural plants	Aggro technology	
Ecology of agricultural plants
